Motorized Closet Conveyor Systems

Shelf Carousel Systems, Double-Tier Shelf Models

Smart Space Optimization

Revolutionize Your Storage with the Motorized Closet Shelf Carousel

The Motorized Closet Shelf Carousel is a cutting-edge, space-saving storage solution designed for optimal organization of folded garments, handbags, shoe boxes, and accessories. Featuring silent, motorized rotation, it's the perfect choice for walk-in closets, luxury wardrobes, boutiques, and any environment where vertical space is underutilized.

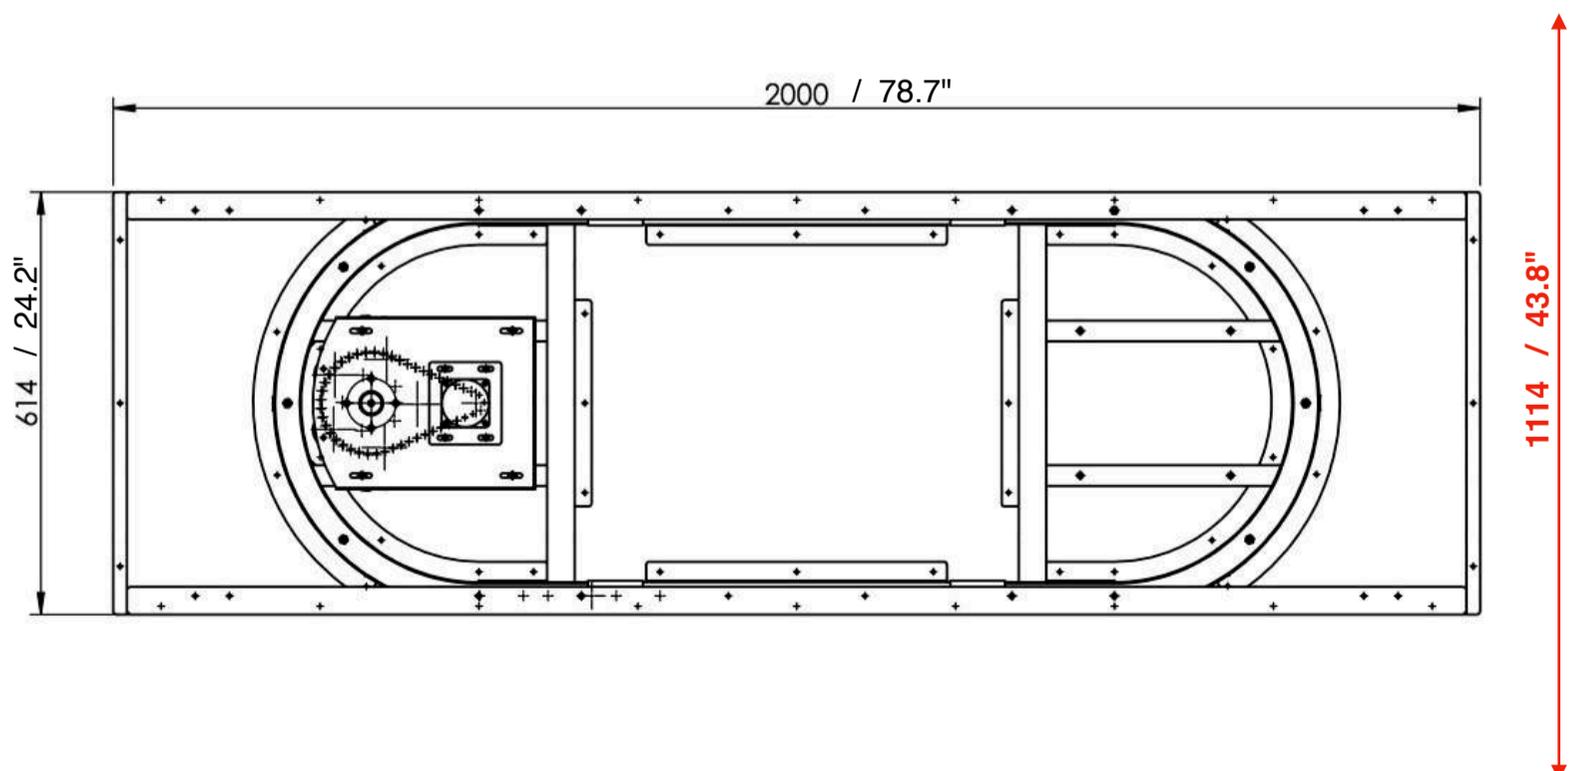

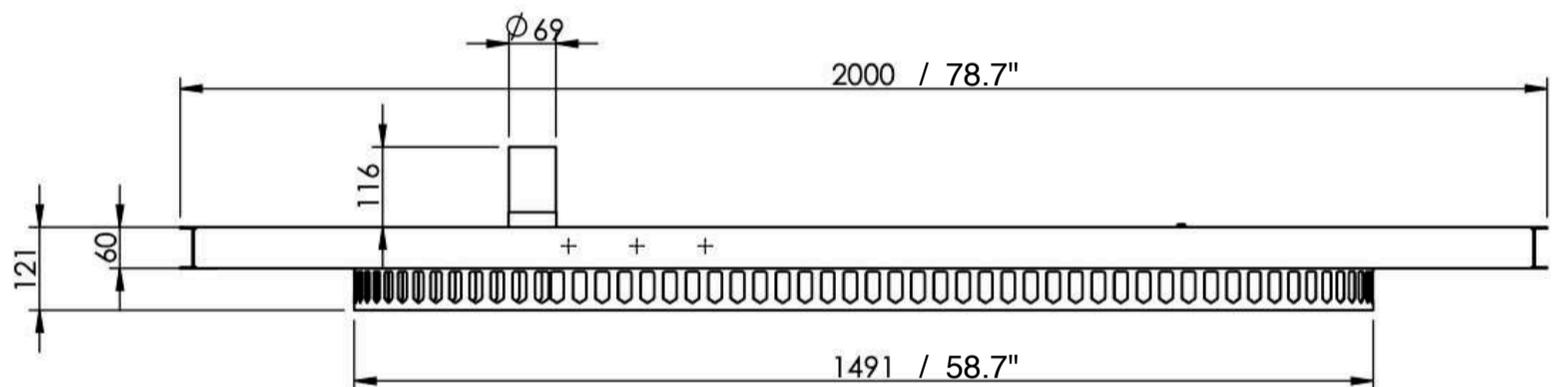

✓ Key Features

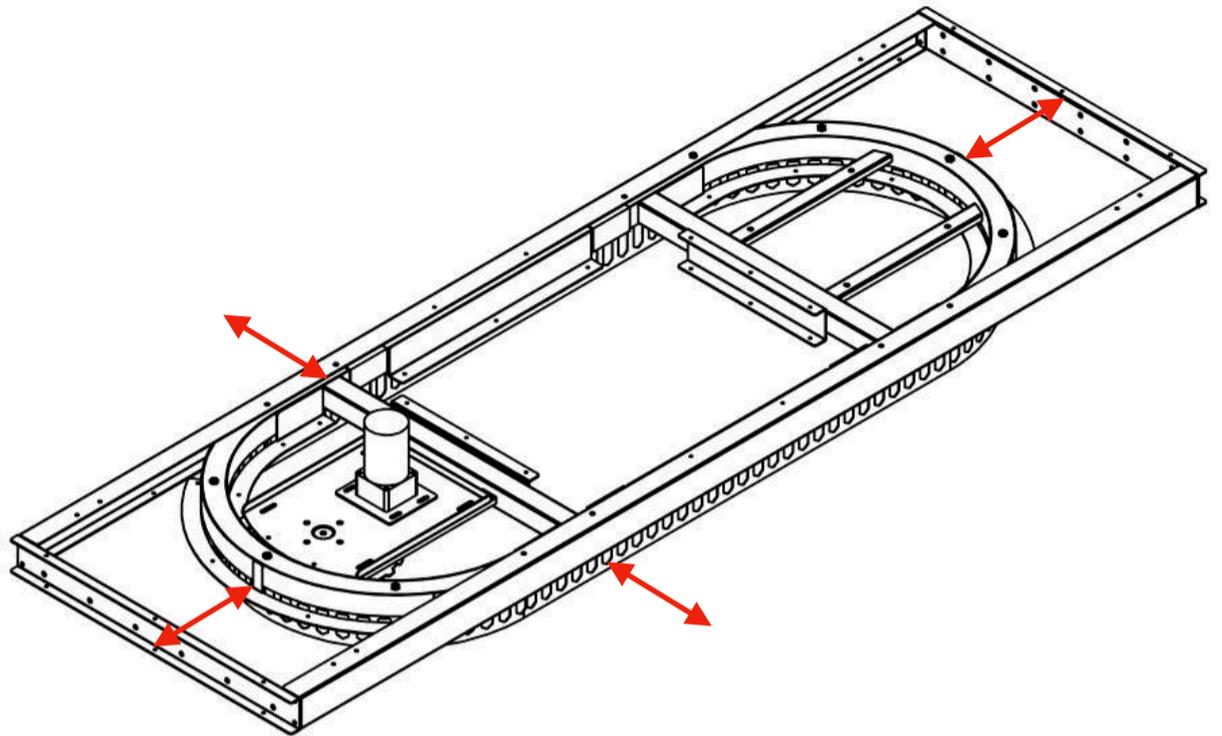

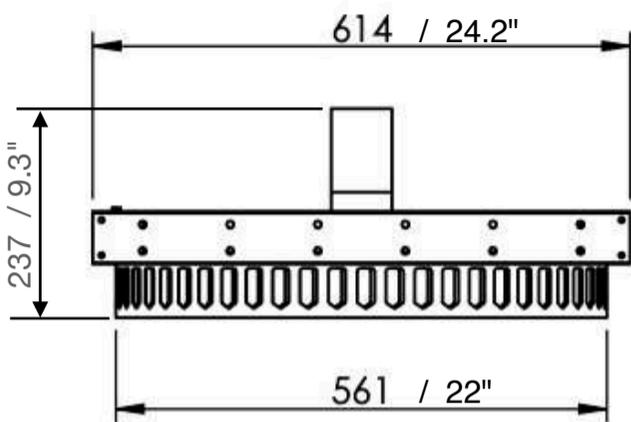

◆ Standard Full-Length Model S-100

- Length: 2000 mm (78.7")
- Width: 614 mm (24.2")
- Height: 297 mm (11.7")

Capacity: **100 hanger holes** (cells) per unit

i When planning, please allow an additional **9 inches of clearance on each side at least** in width to accommodate hangers. The length already includes hanger space in the design.

i When planning, please allow an additional **9 inches of clearance on each side at least** in width to accommodate hangers. The length already includes hanger space in the design.
